

Chromebook Guide

Step 1 - Open the lid on the Chromebook, it will automatically turn on. If it does not turn on, plug the power cable in.

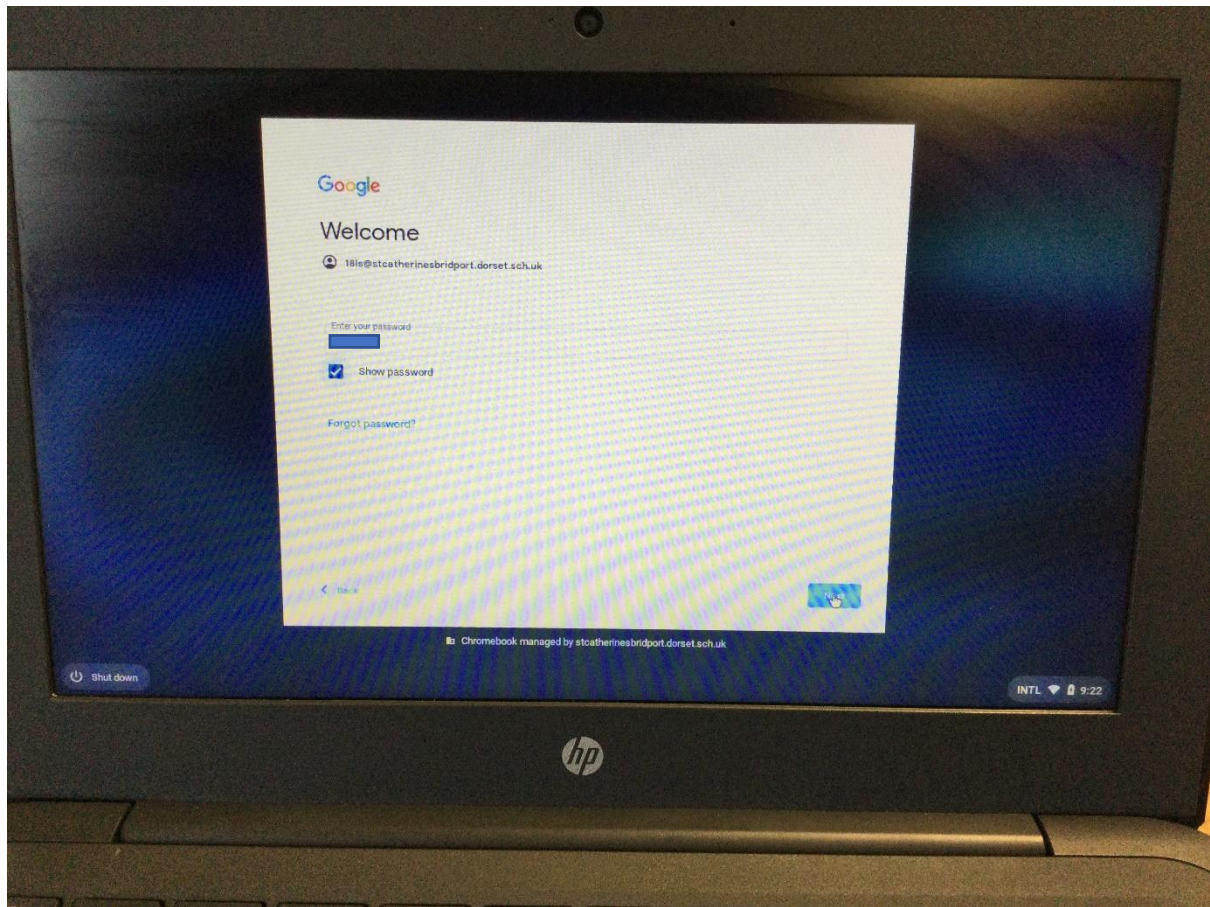

If you do not see this screen skip to Step 2

Enter your child's google log in into the user box and click next, this will be a 2 digit number and their initials, this information is in their reading record, please email us if you can't find it.

Enter their password into the password box and click next

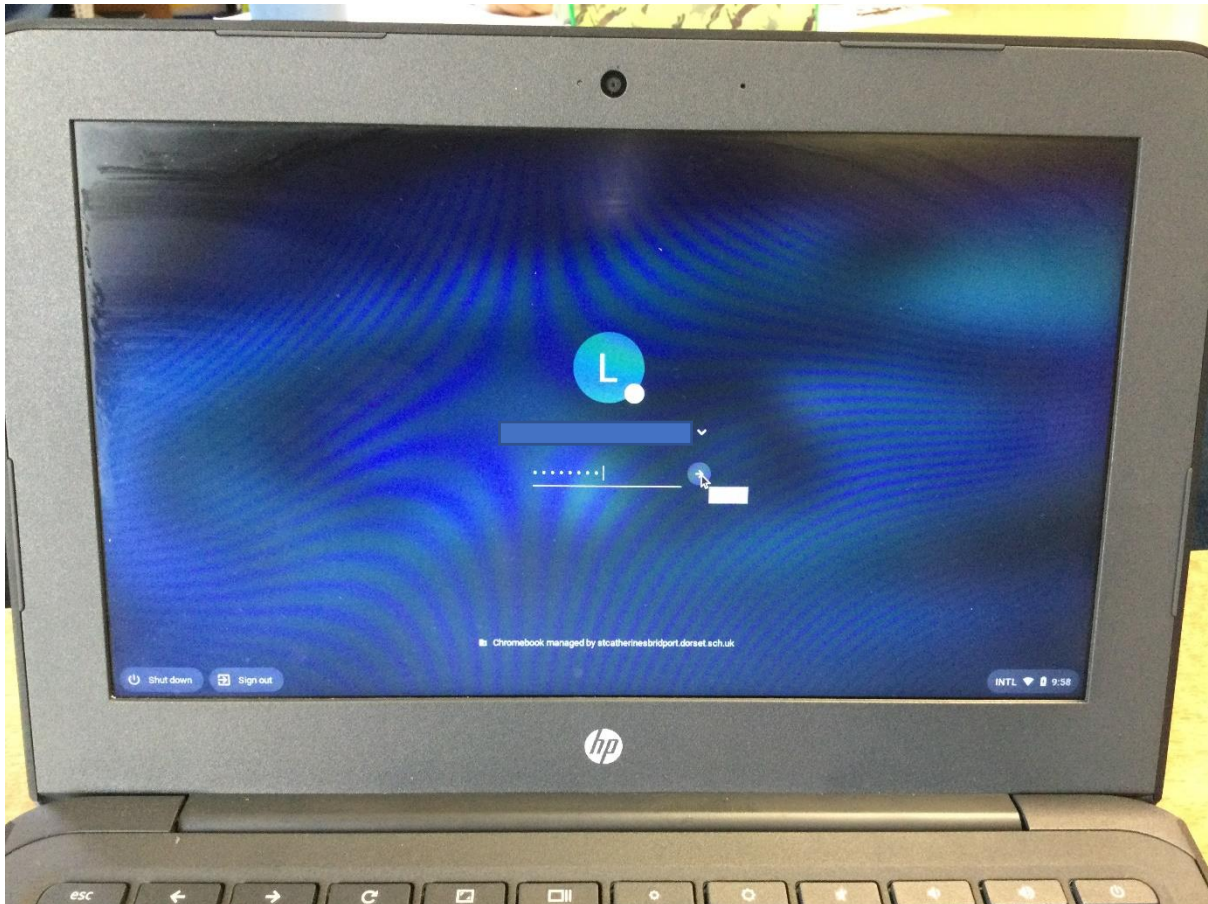

Go to step 3

Step 2

You may see this screen when opening the chromebook, if so, click in the box and type lion3995, then click the arrow.

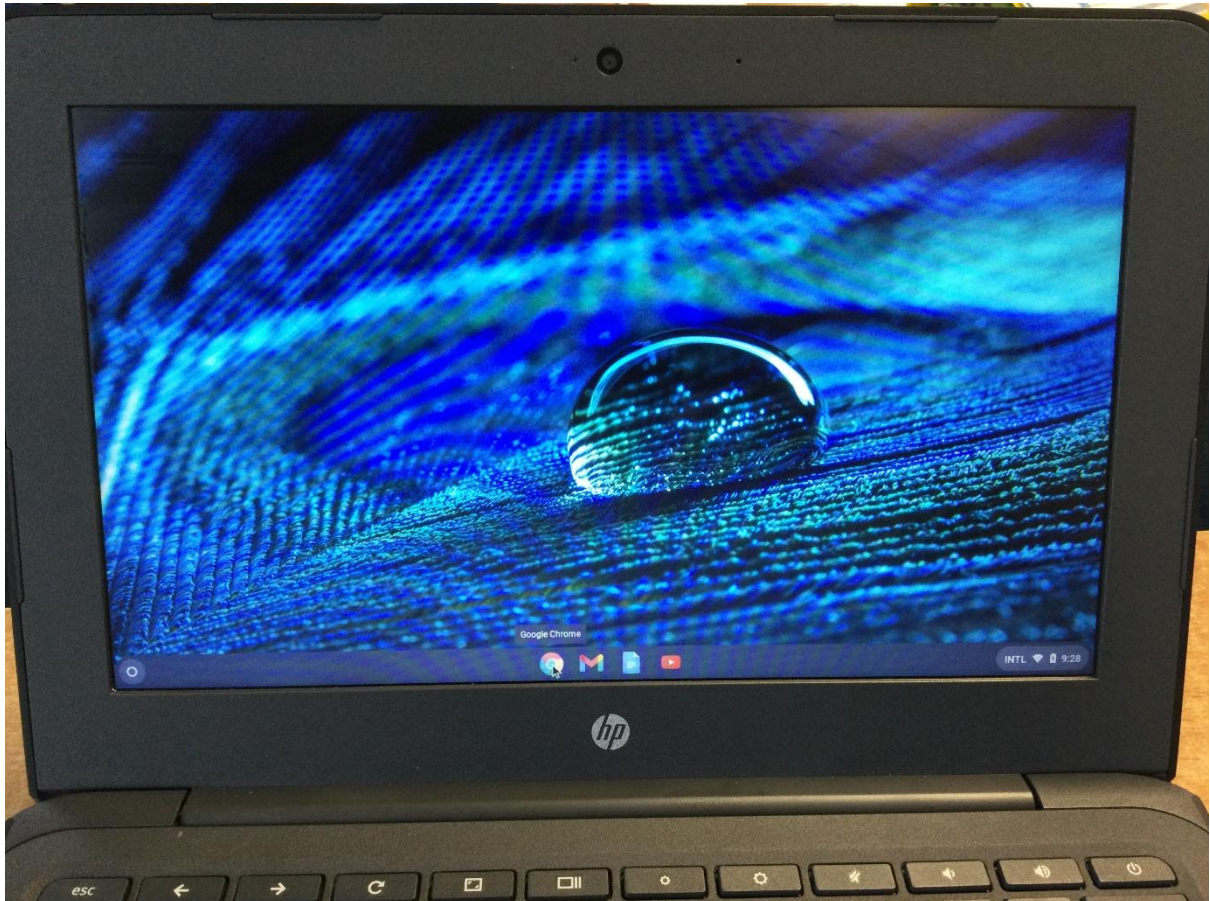

If you do not see this screen got to Step 3

Step 3

You may see this screen when opening the chromebook, you may also see it after the last 2 steps

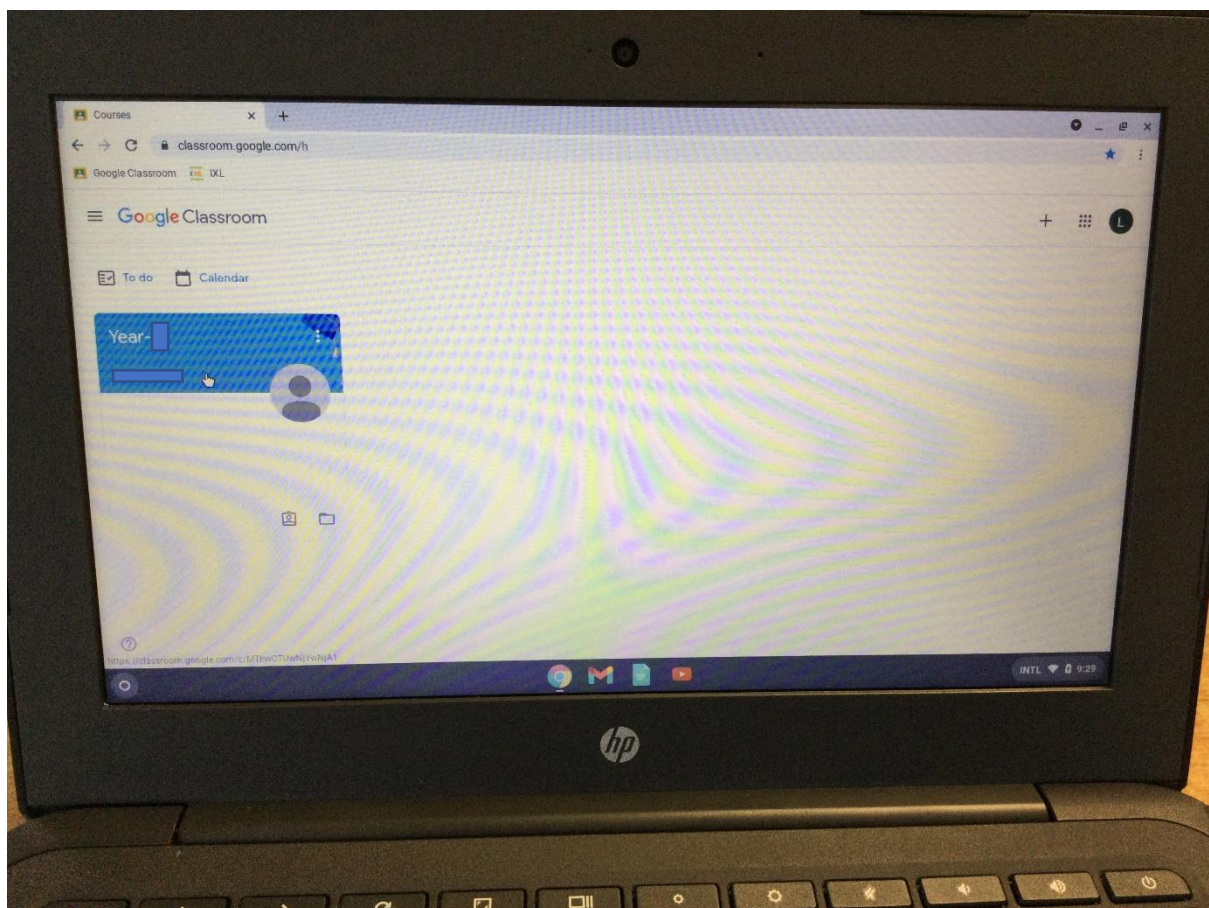

Click the red, green, yellow and blue ball at the bottom

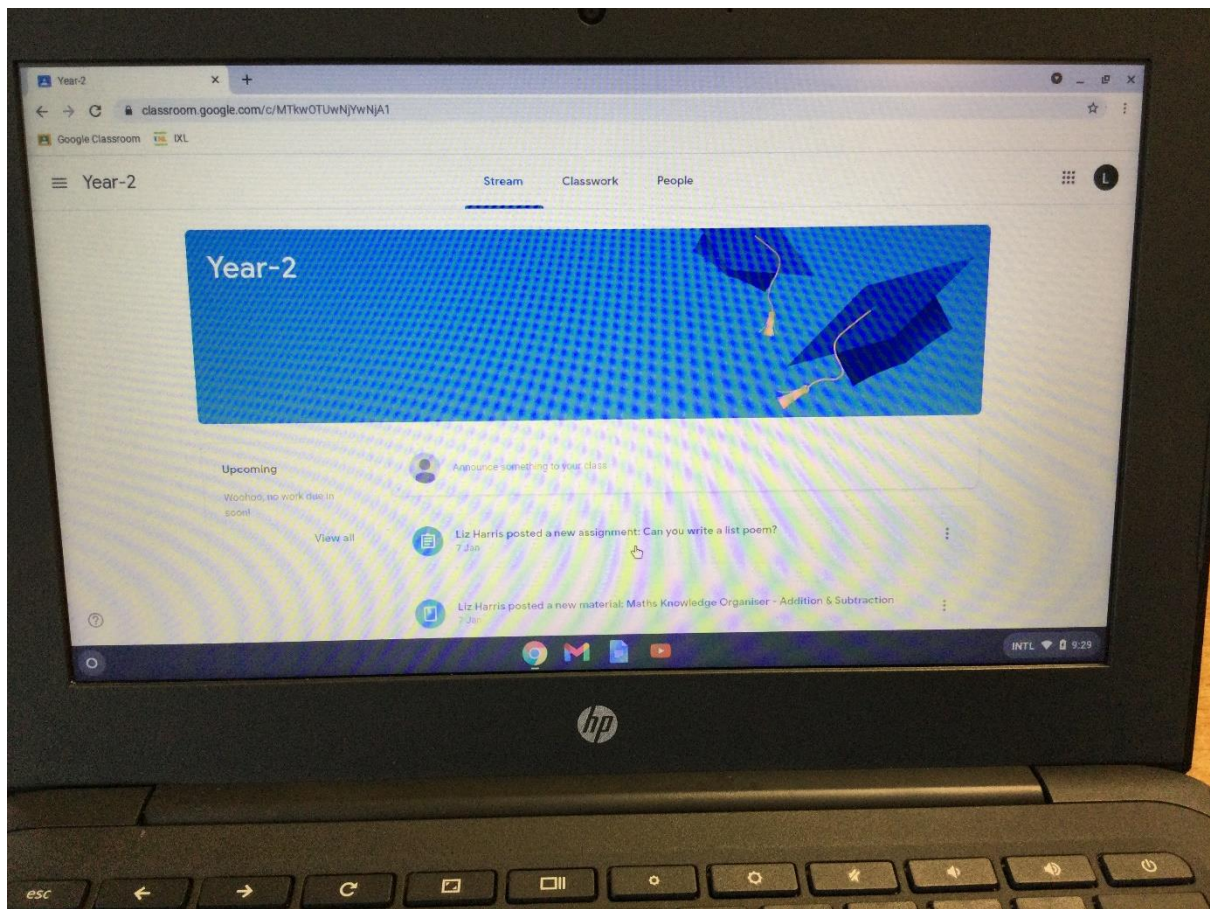

Step 4 – go to classroom.google.com

Having signed into the Chromebook with your child's google log in you should do straight into their classroom. If not and it asks you to sign in, enter their google log in. If you are using the Chromebook with different children you will need to sign them out of the chromebook so the other can log in. To do this click in the bottom right hand corner by the time and then sign out in the top left hand of the box that appears.

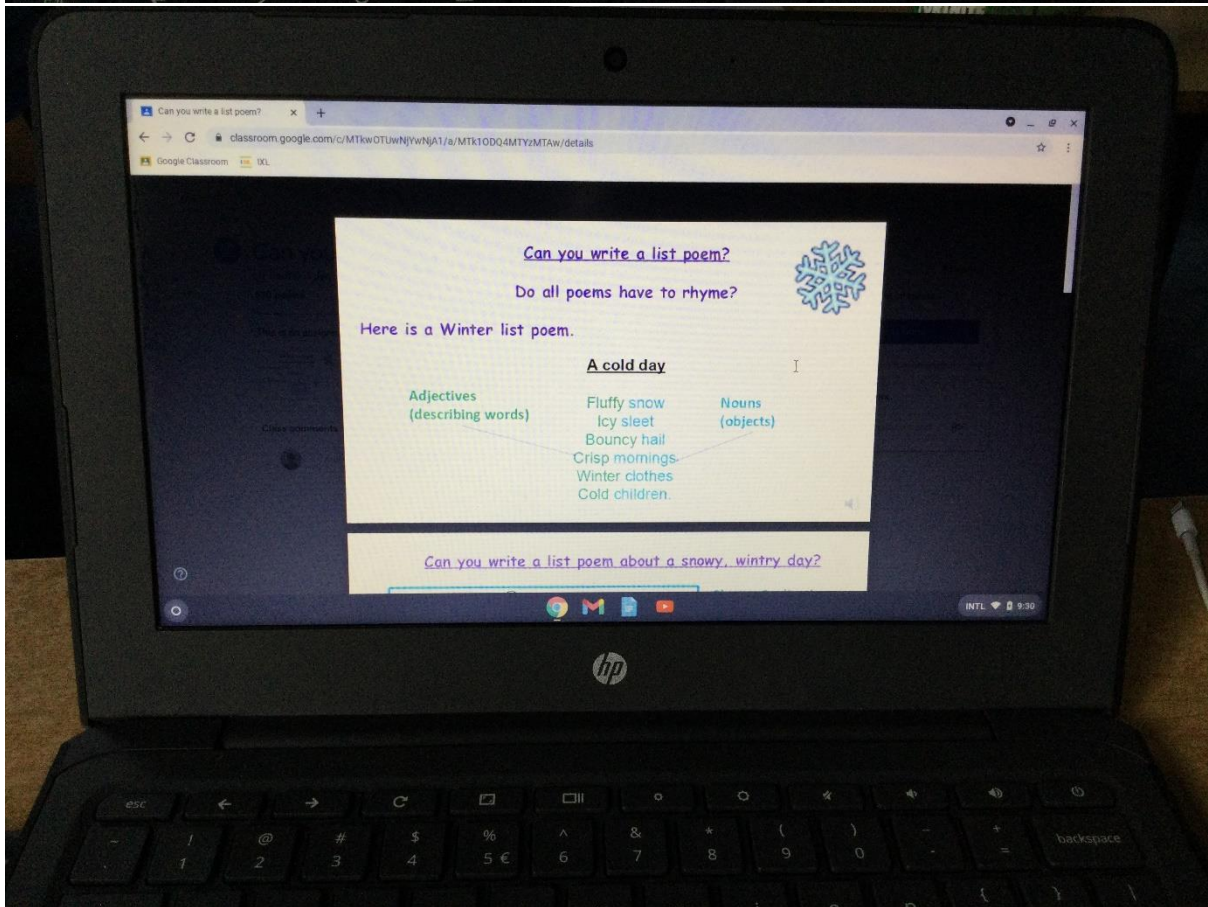

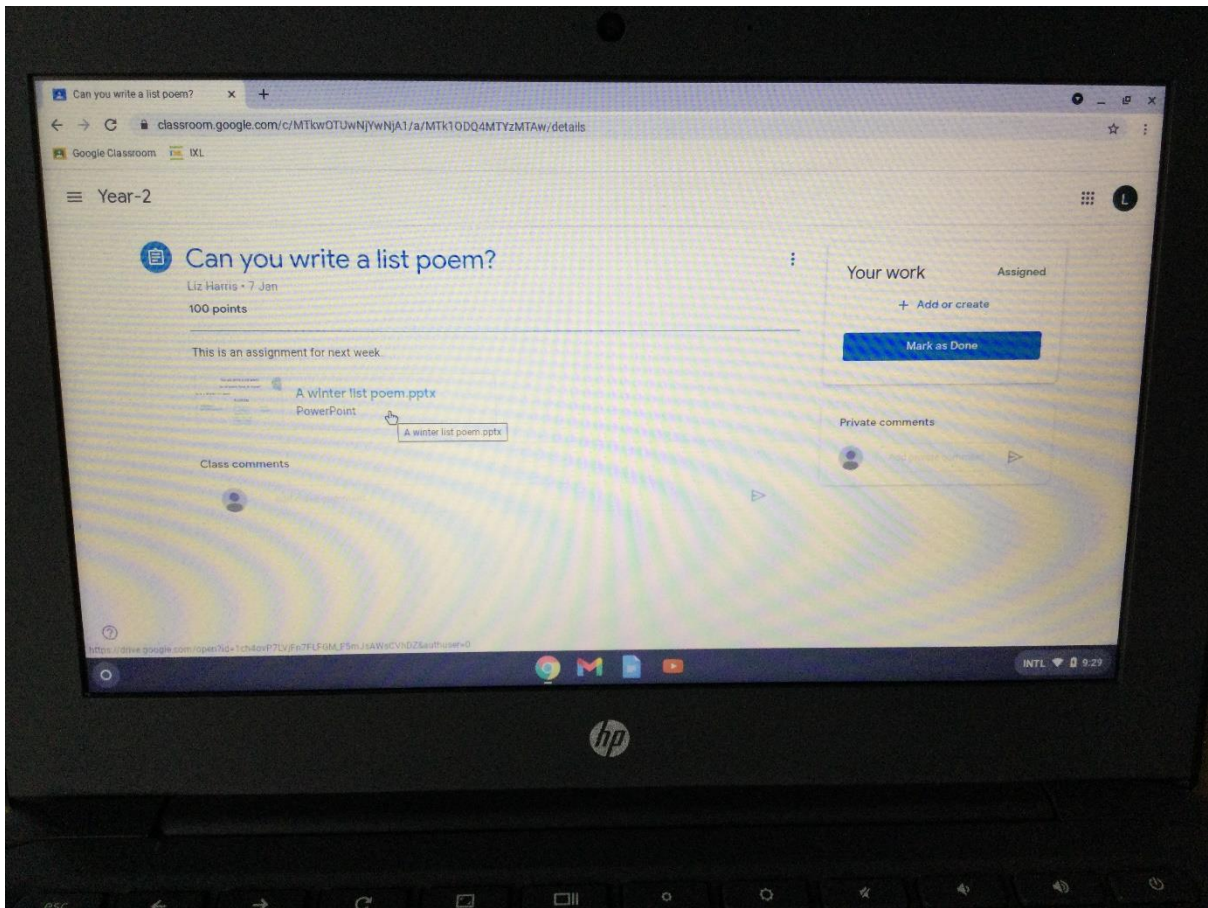

Google classroom will look like this, click on your child's Year or Class to view work.

You can see the Assignments set by the teacher here. Click on the assignments to view them

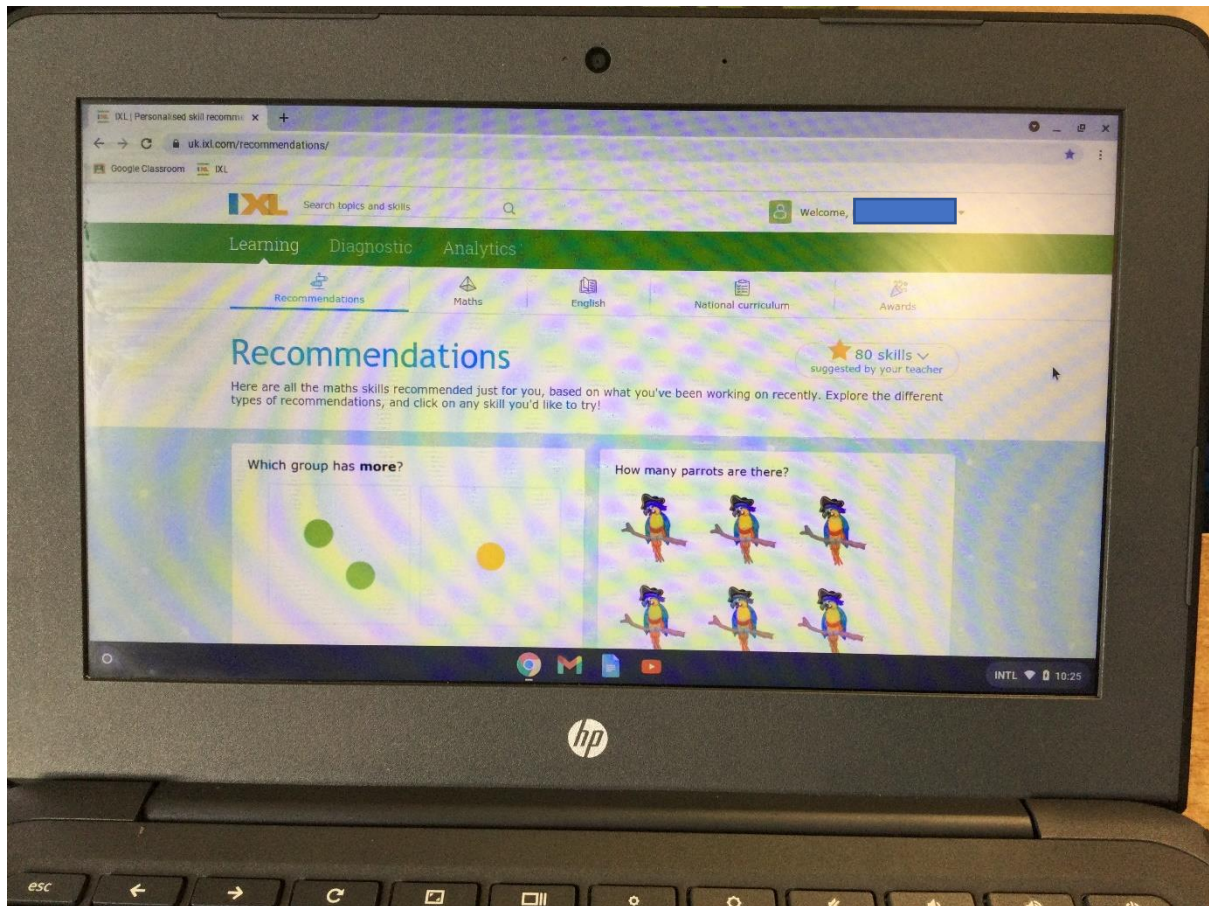

Then you can click on the work

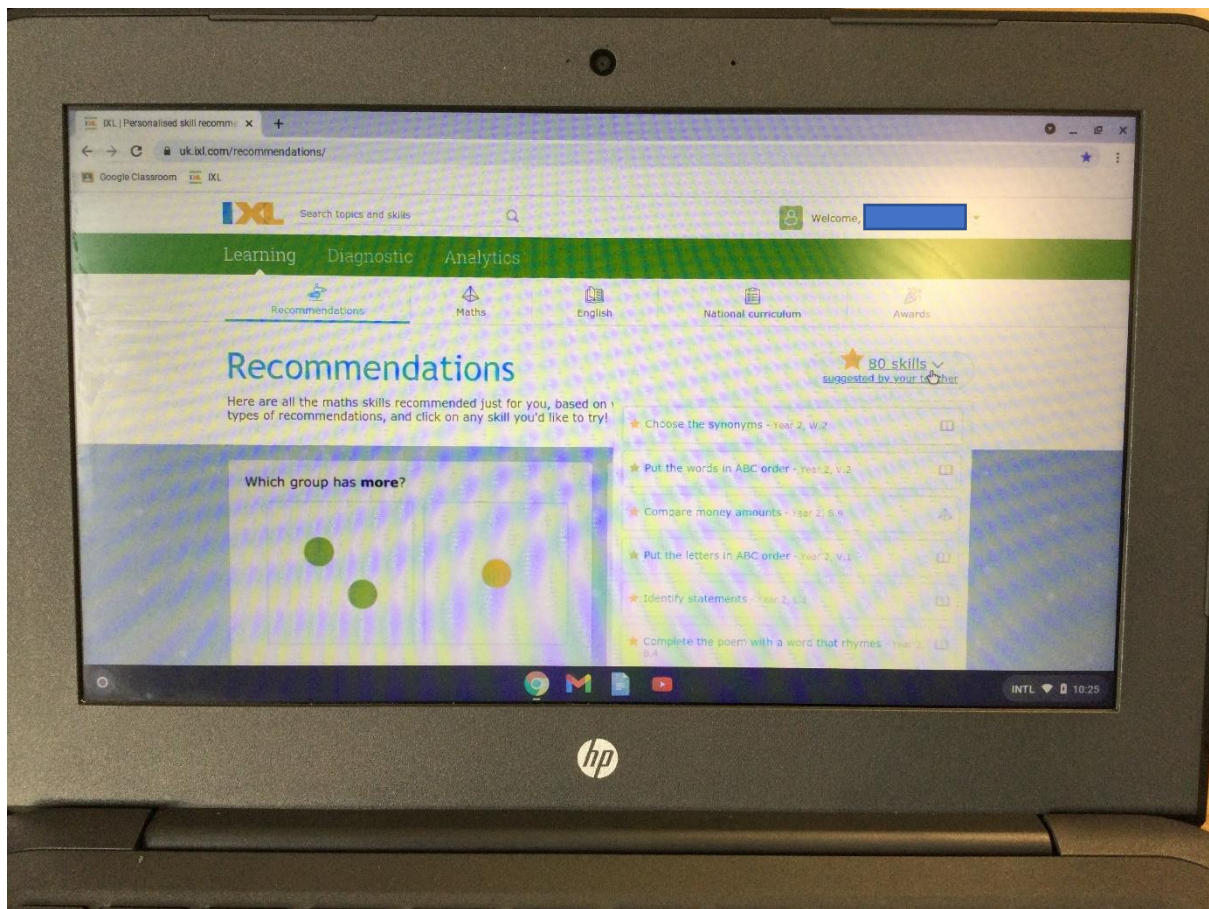

You can always click the three lines in the top left hand corner and then classes to go back to the start screen.

For IXL, go to uk.ixl.com and enter your child's log in information.

Click on the skills button in the top right to view the tasks set by the teacher, you can then click on the tasks

When you have finished using the Chromebook just close the lid or sign out if you will be using it with a different google log in.
