

Predict and measure

Predict which line is the **shortest** and the **longest**.

Measure the lines. *What do you notice?*

I know... so...

A **pair of scissors** is about the same length as **7 cubes**.

A **lap top** is about the same length as **3 pairs of scissors**.

A lap top is about the same length as cubes.

Which answer?

The scales balance.

One blue block weighs the same as one green block.

One blue block is lighter than one green block.

One blue block is heavier than one green block.

Explain why.

Explain

These scales balance.

A red block weighs the same as yellow blocks.
